

TECHTOWER TELESCOPING MONITOR MOUNT FOR VESA MONITORS

367-5617

Designed using our TechTower Pole with double pivot, this new offering from ENS Group provides easy adjust vertical, tilt and side to side rotation of your POS AIO or Display Monitor. With cable strain relief built in and 'through the pole' cable routing, this mount looks as clean as it is durable. Cables can exit the Pole near the bottom or through your counter-top.

The telescoping vertical lift feature allows the center of your Monitor to be positioned between 20.8" and 26.3" from the mounting surface.

- ✓ 5.5" of vertical monitor adjustment
- ✓ 180 degrees left-to-right monitor rotation
- ✓ 50 degree upward and 10 degree downward Monitor tilt
- ✓ Easy attach Monitor feature on VESA plate
- ✓ Holds monitors weighing up to 20 lbs.
- ✓ Integrated and protected cable management
- ✓ Additional device mounting options back of clamp

EASY HEIGHT ADJUSTMENT:

1. Release Latch

2. Adjust Height

3. Engage Latch
